Re: Deficient Notice of Intention (Permit Fees Due), Small Mining Activities, Rubellite Claims 1-4 and Red Donkey Claims 1-5, S/023/069, Juab County, Utah

Dear Mr. Adams:

On October 16, 2000, we received copies of your two notices, forwarded to us from the Bureau of Land Management (BLM), for your Rubellite Claims 1-4 located in a portion of Section 18, T13S, R11W, and the Red Donkey Claims 1-5 located in a portion of Section 12, T13S, R12W, Juab County, Utah. These notices were submitted on behalf of you, Jimmy, Shay and Eugene Hodges. We have listed you as the main contact; please advise us if the contact is to be someone other than yourself.

Because the two projects are located within two miles of one another, we will categorize them as one project, under the small mining operations category. We have performed an initial review of the notices and find that the notices satisfy the requirements of Rule R647-3 of the Utah Mined Land Reclamation Act of 1975, Title 40-8, *et seq.*, Utah Code Annotated *with the exception that the permit fee was not received*. **Therefore, the notices cannot be accepted as complete and you are not authorized to create any disturbance until the \$100.00 permit fee has been received and you have received written acceptance from this Division and the BLM office.** The permit fees are due with the initial application and annually thereafter, based on the Division's fiscal year (July 1 - June 30). A billing notice is enclosed, and the bottom portion to be returned with your fee payment.

For your future reference, we have also enclosed a copy of the minerals rules and a small mining notice of intention form (MR-SMO). The Division will suspend further review and await your permit fee before we can issue final acceptance of your notices.

If you have any questions regarding this letter, please contact me at (801) 538-5321. In reply, please refer to S/023/069. Thank you for your cooperation.

Sincerely,

Tom Munson
Senior Reclamation Specialist
